AOA 21: Training Program Requirements

AOA Education & Training	Document created	August 2017
	Version	October 2017
	Next scheduled review	October 2020

Purpose and Scope

The AOA 21 Training Program is comprised of three unique Stages of Training – Introduction to Orthopaedics, Core Orthopaedics and Transition to Practice.

This document outlines the training program requirements of each Stage of Training for Australian Orthopaedic Association (AOA) Trainees in the AOA 21 Training program.

This document applies to trainees in the AOA 21 Training Program.

Introduction to Orthopaedics

1. During Introduction to Orthopaedics, the Trainee must:

Training Time

- 1.1. Complete a minimum of 12 months training time in an accredited training post
 - 1.1.1. The Trainee will have a maximum of two (2) years to complete Introduction to Orthopaedics. Trainees who do not complete Introduction to Orthopaedics within two years will be dismissed from the program.
 - 1.1.2. Please refer to the *Flexible Training Policy* for arrangements specific to part time and interrupted training

Education

- 1.2. Successfully complete:
 - 1.2.1. AOA Bone Camp
 - 1.2.2. RACS Australia & New Zealand Surgical Skills Education & Training (ASSET) course

1.2.3. RACS Care of the Critically Ill Surgical Patient (CCriSP) course.

1.2.4. RACS Training in Professional Skills (TIPS) course

RACS courses may have been completed prior to commencing training. Please see www.surgeons.org for application procedures for ASSET, CCriSP and TIPS Courses

Research

1.3. Select a Research Pathway

1.3.1. If project pathway selected, submit a research proposal

1.3.2. If coursework pathway selected, indicate which course will be undertaken

1.3.3. If PhD pathway selected, submit an expression of interest in a PhD post

Exams

1.4. Pass the Orthopaedic Principles and Basic Science (OPBS) Examination

Please see www.surgeons.org for the Conduct of the Orthopaedic Principles and Basic Science Examination Policy

Feedback and Assessment

1.5. Complete feedback entries and workplace based assessments sufficient to demonstrate that Expectations of Performance for Introduction to Orthopaedics have been achieved. This includes:

Trainee Feedback Entries

1.5.1. Trainees must actively seek feedback on a regular basis. A rate of at least one Feedback Entry each week is recommended.

Workplace based Assessments (WBAs)

1.5.2. Trainees must complete multiple WBAs each 3-month training period.

1.5.3. Trainees must complete a minimum of one of each of the following WBAs each 3-month training period:

- Patient Consultation Assessment (PCA)
- Management Plan Assessment (MPA)

1.5.4. Trainees must have a minimum of one Surgical Skills Assessment (SSA) that indicates a score of three on the global scale, for the following procedures:

- Internal fixation of a distal radial fracture
- Internal fixation of a proximal femoral fracture
- Internal fixation radial and ulna shaft fracture
- Internal fixation of a Weber C or bi-malleolar fracture
- Tension band wiring of the olecranon or patella
- Hemiarthroplasty of a hip
- Intramedullary nailing of a femoral or tibial shaft fracture
- External fixation of a fracture or dislocation

eLog

- 1.6. Contemporaneously record all surgical procedures

Monitoring and Review

- 1.7. Complete a:

- 1.7.1. Performance Appraisal with their Trainee Supervisor at the conclusion of each 3-month training period resulting in submission of a 3-monthly Performance Appraisal Form
- 1.7.2. Progress Review with their Director of Training at the conclusion of each 6-month training period resulting in submission of a 6-monthly Progress Review Form

Core Orthopaedics

2. During Core Orthopaedics, the Trainee must:

Training Time

- 2.1. Complete a minimum of 24 months training time in an accredited training post
 - 2.1.1. The Trainee must complete Core Orthopaedics within seven (7) years from commencement of training. Trainees who do not complete Core Orthopaedics within seven (7) years from commencement of training will be dismissed from the program.
 - 2.1.2. Please refer to the *Flexible Training Policy* for arrangements specific to part time and interrupted training

Education

- 2.2. Successfully complete RACS Early Management of Severe Trauma (EMST) Course
EMST may have been completed prior to commencing training or during Introduction to Orthopaedics. Please see www.surgeons.org for application procedures for the EMST Course
- 2.3. Demonstrate mandatory attendance at Bone School

Research

- 2.4. Continue to work on their selected Research pathway as follows:
 - 2.4.1. If project pathway selected, the trainee must demonstrate significant progress towards completion of the project
 - 2.4.2. If coursework pathway selected, the trainee must be enrolled in their selected course before the end of Core Orthopaedics

- 2.4.3. If PhD pathway selected, the trainee must demonstrate significant progress towards completing their PhD

Exams

- 2.5. Pass the RACS Fellowship Examination

- 2.5.1. To be eligible to apply to sit the RACS Fellowship Examination (FEX), the Trainee must demonstrate:
- Successful completion of the RACS EMST course
 - Completion of the following orthopaedic modules: Trauma, Shoulder, Knee, Hip and 2 other modules of trainee's choice (i.e. 6 of 11 modules in total)
 - An overall rating of 'Progressing Well' on the two most recent Performance Appraisal forms
 - That they will have completed a minimum of 18 months training time in Core Orthopaedics at the time of sitting the exam
 - The support of their Director of Training
 - Payment of fees owed to AOA and RACS.

Applications to sit the Fellowship Examination must be made to RACS. Please see www.surgeons.org.

Feedback and Assessment

- 2.6. Complete feedback entries and workplace based assessments sufficient to demonstrate completion of Orthopaedic Modules. This includes:

Trainee Feedback Entries

- 2.6.1. Trainees must actively seek feedback on a regular basis. A rate of at least one Feedback Entry each week is recommended.

Workplace based Assessments

- 2.6.2. Trainees must complete multiple WBAs each training period.

- 2.6.3. Trainees must complete regular:
- Patient Consultation Assessment (PCA)
 - Management Plan Assessment (MPA)
 - Case Based Discussion (CbD) and
 - Surgical Skills Assessment (SSA).

- 2.6.4. Trainees must have WBAs in their portfolio to satisfy the Orthopaedic Module requirements

eLog

- 2.7. Contemporaneously record all surgical procedures

Monitoring and Review

- 2.8. Complete a:

- 2.8.1. Performance Appraisal with their Trainee Supervisor at the conclusion of each 3-month training period resulting in submission of a 3-monthly Performance Appraisal Form
 - 2.8.2. Progress Review with their Director of Training at the conclusion of each 6-month training period resulting in submission of a 6-monthly Progress Review Form
- 2.9. Complete all Orthopaedic Modules

Transition to Practice

3. During Transition to Practice, the Trainee must:

Training Time

- 3.1. Complete a minimum of 12 months training time in an approved training post
 - 3.1.1. The Trainee will have a maximum of two (2) years to complete Transition To Practice. Trainees who do not complete Transition To Practice within one year may no longer be allocated to a training post but may continue to work towards completion of training up until the maximum training time.
 - 3.1.2. RTC Chairs may recommend continuation in a training post where this is needed for remediation or supervision purposes. This will apply in blocks of 6-month training periods.
 - 3.1.3. Please refer to the Flexible Training Policy for arrangements specific to part time and interrupted training

Education

- 3.2. Successfully complete all AOA 21 Workshops
AOA 21 Workshops may be completed any time following commencement of training.

Research

- 3.3. Successfully complete their selected Research pathway

Feedback and Assessment

- 3.4. Actively seek feedback on a regular basis. A rate of at least one Feedback Entry each week is recommended.
- 3.5. Accrue 110 verified points as outlined below:

Section	Requirement
1. <i>Surgical Audit and Peer Review</i>	<i>One peer reviewed audit</i>
2. <i>Personal Review, Development and Research</i>	<i>25 points</i>
3. <i>Clinical Services</i>	<i>25 points</i>
4. <i>Education</i>	<i>60 points</i>

Please refer to the AOA 21 Training Program Handbook for further information.

eLog

3.6. Contemporaneously record all surgical procedures

Monitoring and Review

3.7. Complete a:

3.7.1. Progress Review with their Director of Training at the conclusion of each 6-month training period resulting in submission of a 6-monthly Progress Review Form
