Institutions	Royal Brisbane Hospital	
Educational goals and characteristics	The Royal Brisbane and Women's Hospital (RBWH) is Queensland's largest hospital and a level 1 Trauma centre. As a tertiary service, there is extensive exposure to simple and complex spinal deformity, trauma, and spinal oncology and revision procedures from throughout the state. Daily spinal clinics and operating afford exposure to the above conditions. The spine fellow is involved in the team-based management of all aspects of spinal care, including on call. Goals achieved by the completion of the fellowship include independent assessment, decision making and surgical management of all adult spinal conditions with a view to independent spinal surgical practice.	
Requirements/ criteria	APHRA Registration Completion of FRACS or equivalent (Orthopaedic or Neurosurgery)	
How to Apply	Resume & Letter Responding to Criteria to be emailed to the above address.
