Institutions	• The Avenue Hospital • Glenferrie Private Hospital	
Educational goals and characteristics	The fellowship encompasses all aspects of clinical involvement in foot and ankle management in a busy eleven-member group practice, including assessment of new patients, surgical treatment at assistant level (with level of responsibility dependent on the proficiency demonstrated), post-operative care and rehabilitation. Surgical procedures comprise all aspects of ankle and foot reconstructive surgery including arthroscopic procedures, stabilisations and arthroplasty. There is an emphasis on elite athlete injury management. The fellow's interests will dictate their clinical involvement. The successful candidate is required to complete a research project to level of final draft during the tenure of the fellowship. The fellow will be involved with postgraduate education in foot and ankle surgery. The supervisor of the research project rotates throughout the group and will depend on the subspecialty interest of the fellow and the supervisor.	
Requirements/ criteria	The applicant must: • be eligible for registration with the Australian Health Practitioner Regulation Agency • have English language IELTS pass of 7 in all four components • have completed or be due to complete their training in orthopaedic surgery • have evidence of research experience, including evidence of relevant published research • provide medical practice indemnity insurance and health insurance for	

	family while in Australia • be eligible to obtain an 407 Training Visa
How to Apply	Applications to be submitted with: • names of three referees with whom the candidate has worked • detailed current curriculum vitae • preference for proposed starting dates (January/February or July/August of any year) • areas of interest (clinical and research). Appointments are generally made between six and twelve months in advance. Applications to be emailed to Lisa Wheeler CEO, at lwheeler@mog.com.au
