Institutions	- Fairfield Hospital - Campbelltown Private - Sydney Southwest Private These hospitals are based in the south western part of Sydney and serve a large migrant population. There is a wide spectrum of conditions seen often in its advanced stages.	
Educational goals and characteristics	At the end of the fellowship it is expected that you will be very comfortable with moderately complex primary joint replacements of the knee hip and shoulder. There will be a reasonable exposure to revision arthroplasties. You are expected to participate in departmental meetings and do some research. You will become well versed in evaluating journal articles and practicing evidence based surgery. Planning for surgery and running your own theatre under supervision. It is expected that you will be doing 4 joint replacements per week and a number of other minor orthopaedic procedures. You will be seeing patients in the private rooms, assisting in the private hospital and following up post op patients.	
Requirements/ criteria	It is essential that the fellow is an experienced orthopaedic surgeon and has worked in an arthroplasty unit. The Fellow must also be comfortable with routine knee and shoulder arthroscopy set up.	
How to Apply	Please send your CV by email to Michelle Thompson
