

Australian Orthopaedic Association

RESEARCH FOUNDATION STRATEGIC PLAN 2018–2023

VISION

To improve patient outcomes through the support of high-quality and globally recognised Australian orthopaedic and musculoskeletal research.

CORE STRATEGIES

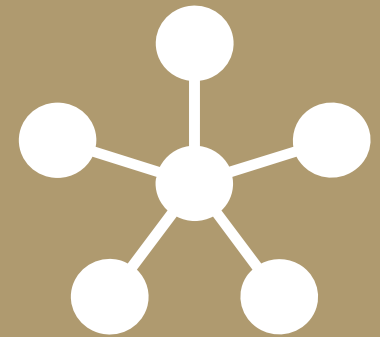

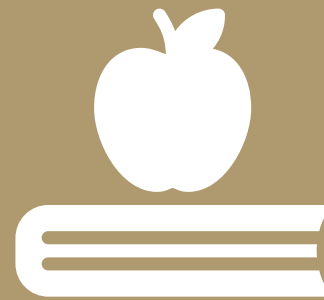

AWARENESS

INFRASTRUCTURE

FUNDING

EDUCATION

FUNDING

AIM

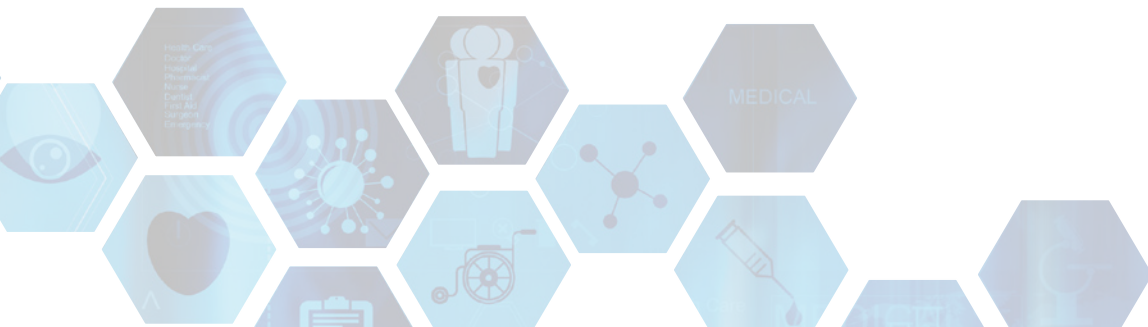

- To become a self-sustaining research body by broadening the diversity of the funding base

AWARENESS

AIM

- To raise the Research Foundation's profile nationally and internationally as a relevant research body in orthopaedic and musculoskeletal healthcare
- To promote an improved public understanding of scientific and medical developments in the field of orthopaedic and musculoskeletal healthcare
- To publicly recognise high-quality research that has been funded by the Research Foundation

EDUCATION

AIM

- To support members in undertaking research by providing opportunities to further improve their research literacy
- To nurture and develop research leaders
- To increase the number of high-quality Research Foundation grant applications submitted

INFRASTRUCTURE

AIM

- To create a culture of collaboration and leverage existing research infrastructures for membership access and use
- To grow and develop the Research Foundation in order to become a globally recognised research organisation
- To increase the number of Research Foundation grant applications by democratising and widening the pool of researchers
- To provide opportunities for members to pursue a higher degree
